JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Case of yellow fever at Habana on steamship Fürst Bismarck from Veracruz.

Doctor Amesse further reports, under date of June 21:

A case of yellow fever arrived at Habana on the steamship *Fürst Bismarck* from Veracruz.

The patient was a Spaniard from Puebla, Mexico, who was said to have spent six days in a lodging house near the wharves at Veracruz just prior to sailing. The disease developed on the third day out from Veracruz. Upon arrival the case was isolated at the Las Animas Hospital.

Report from Matanzas—Inspection of vessels—Mosquitoes.

Acting Assistant Surgeon Nuñez reports, June 14:

Week ended June 12. Bills of health issued to 8 vessels leaving for United States ports with an aggregate personnel of 236 crews and 12 passengers in transit. They were all in good sanitary condition.

Rainy weather prevailed throughout the week, and mosquitoes are notably increasing in number, notwithstanding the periodical oiling of their usual breeding places.

No quarantinable diseases have been reported.

Report from Santiago—Inspection of vessels—Leprosy.

Acting Assistant Surgeon Wilson reports, June 9:

Week ended June 5. Bills of health issued to 4 vessels bound for the United States and its dependencies. No vessel was fumigated. No quarantinable disease and no new case of infectious disease was reported. Three cases of leprosy previously reported still present.

The water supply is very bad.

GUATEMALA.

Report from Puerto Barrios, fruit port—Few Stegomyia.

Acting Assistant Surgeon Ames reports as follows:

Week ended June 5. Present officially estimated population, 350.

General sanitary condition of this port and the surrounding country during the week very good.

Few *Stegomyia calopus* present.
